Job Description

Role and Responsibilities

The Project Manager is responsible for achieving company goals and meeting customer expectations by planning and evaluating project activities and providing data management services. The goal is to ensure 100% customer satisfaction. Typical duties include but are not limited to:

- Accomplishes project team objectives by orienting, training, assigning, scheduling, coaching, and counseling, communicating job expectations; planning, monitoring, appraising and reviewing job contributions; planning and reviewing compensation actions; enforcing policies and procedures.
- Achieves operational objectives by contributing information and recommendations to strategic plans and reviews; preparing and completing actions plans; implementing production, productivity, quality, and customer-service standards; resolving problems; completing audits; identifying trends; determining system improvements; implementing change.
- Meeting financial objectives by understanding client’s annual budget; forecasting client requirements; generating sales leads; initiating corrective actions.
- Updates job knowledge by participating in educational opportunities; reading professional publications; maintaining personal networks; and participating in professional organizations.
- Enhances department and organization reputation by accepting ownership for accomplishing new and different requests, exploring opportunities to add value to job accomplishments.

GreenSoft maintains a robust Information Security Management System (ISMS) which all employees are required to adhere to. Associate Project Manager ISMS requirements include:

- Adhering to the information security policies and procedures.
- Understanding of the information security requirements for each project.
- Ensuring compliance with data protection and security protocols while handling protected data

Qualifications and Education Requirements

- B.S. degree in engineering
- Experience in a leadership position.
- Demonstrated ability to establish and maintain effective relationships and partnerships with key stakeholders.
- Demonstrated experience in leading and maintaining projects that are strategic in nature and in scope.

Preferred Skills

- Strong interpersonal, communication, facilitation, leadership, and presentation skills
- Strong analytical, problem solving, and time management skills.
- Ability to work independently and with minimal supervision.
- Demonstrated ability to work in a small team setting.
- Good computer skills, proficient with MS Office applications
- The ability to communicate effectively in multiple languages is an asset.
- Excellent organizational skills with demonstrated ability to execute assignments on time and on budget.
